

Contest of Video Presentations “Technological Advances in My Future Profession”

The objectives of the contest are to:

Encourage students to research and present technological advances relevant to their future profession.

Foster creativity and innovation through the use of multimedia presentation tools.

Develop professional communication skills in English, including speaking, pronunciation, and vocabulary.

Promote critical thinking by requiring students to analyze the impact of technology on their industry.

Strengthen written communication through a concise 200–300 word description of the video content.

Date for Submission: 28.09.26 - 09.11.26

Requirements

- **Individual delivery:** 4 -5 minutes in English
- **Content:** key advances in your field

- **Format:** video presentation + short description (Word doc.)
